Your Search for a Second Home in Dubai Made Easy

Dubai has several residential districts with a wide variety of properties to buy. Whether you are looking for a new luxury apartment with a view in the towering Burj Kalifa in the heart of Dubai's commercial district or an expansive, multi-bedroom villa with a private pool, our team will help you find a property for sale that suits your needs.

Our real estate listings also include villas, apartments, and other types of property for sale in Dubai's many other districts, such as Jumeirah Lake Towers, Bur Dubai, Mirdif and Garhoud, and Discovery Gardens, to name just a few. Contact our associates to get more information about which areas and properties best suit you. From apartments with a view to villas with several, we have it all. We have Exclusive tie-ups with top real estate developers of UAE. Like Damac Properties, MAG Property Development, Emaar Properties, Deyaar, Nakheel Properties, ETC.

We will help you buy property situated anywhere in UAE. Our team at Exclusive Links are all trained and compliant in line with RERA, the Real Estate Regulatory Agency. Our people are here to serve customers who are not just looking for a house, but for a home or investment. Our team is the essence of Exclusive Links; they are the total experience, the brand's main attribute and point of differentiation. The Exclusive Links experience is the connection between our customers and the product and our superior service is the result of a common view and drive for success. Our core value is working for the benefit of our customers. This represents our dedication to customer service delivery on all levels and to contribute to the sustainable development of the market. In living up to this philosophy, all employees continue to work together to propel the company forward.

1. Growing Economy

Whenever an investor wants to invest in a foreign land, one of the important factors they take into consideration is the growth of the economy of that country. Now, the interesting thing about Dubai is that all the numbers and statistics indicate that Dubai will have a continuous economic boost for the next few years. While rich in oil Middle Eastern countries and the capital of UAE, Abu Dhabi's economy has suffered the punch of recent oil crises; Dubai has flourished and came out as champion of planning and economic growth in MENA region.

2. Tourist Centre

Dubai is highly transited by tourists who are fascinated with how this city managed to become a jewel of the desert. The country has number of attractions in its bucket. It hosts various arts and cultural festivals such as Dubai International Film Festival, and Dubai Jazz Festival as well as sporting events like Dubai Golf Desert Classic, Formula 1 Race (Abu Dhabi), Rugby 7's, Dubai World Cup of Horse Racing and international cricket matches.

3. Safety and Security

Dubai is one of the safest cities in the world with a low crime rate and an efficient legal system. A good investor always makes sure that the city in which his/her property is located is safe, and the UAE is not only the safest country in the MENA region but in fact, one of the safest in the world with crimes and theft almost never heard off. It is one of the major reasons why people find it reliable to go to Dubai and start their lives.

4. Ease of Doing Business

According to the Doing Business 2019 report the UAE scored 11th rank globally and 1st rank regionally. The UAE scored impressive ranks in the following indices:

- Getting electricity - 1st rank
- Paying taxes - 2nd rank
- Dealing with construction permits- 5th rank
- Registering property – 7th rank
- Enforcing of contracts - 9th rank
- Protecting minority investors – 15th rank

5.State-of-Art Infrastructure

In the March of 2016, Dubai announced to set up world's biggest wholesale city with an investment of AED 30 billion. The country has the tallest buildings in the world, Burj Khalifa. Dubai International Airport claims the dual titles of the world's fastest growing airport and the world's sixth busiest airport in terms of international passenger traffic, handling 41 million international passengers in 2009. Jebel Ali Port is the world's largest man-made port, and estimated more than a 40% increase in its cargo container throughput from 2008 to 2009. These reasons are enough for any investor to invest in the real estate sector of the country.

6.Relaxed Taxation Rules

Dubai does not impose any personal income tax, capital gains tax or withholding tax. In the year 2018, the country implemented a law that allows 100% foreign ownership of companies, followed by the introduction of a 10-year residency visa for investors and specialists. This reason is more than enough for people around the world to come and work or look for investment opportunities in the City of Gold, Dubai.

7.Ministry of Happiness

Yes, they have a department for 'happiness'. Dubai aims to be one of the happiest cities in the world. The ministry's vision is to have happiness and positivity as a lifestyle and a higher purpose for government work in the country. With such beautiful mindset and dedication towards making the general public happier than ever, one could imagine how his property will develop rapidly and successfully in this beautiful environment.

8.Political Stability

Due to its visionary leadership that works towards development in economic, social, cultural, environmental, and political domains, Dubai and the UAE remain politically stable. Since its formation in 1971, the UAE has been a successful constitutional monarchy and continues to be so. This is because of the belief system of the UAE's Founding Fathers in peace and justice and the continued belief of the present political system and government in the same.

Other Advantages

There are few more advantages of investing in Dubai. They are;

1. Property prices in Dubai are cheaper when compared to other major cities in the world
2. UAE has a liberal policy encouraging foreign individuals and companies to invest and take part in the mutual growth process
3. The introduction of VAT has boosted government revenues that will be spent on infrastructure projects
4. The country has been ranked among world's top 5 hottest shopping destinations
5. Competitive energy costs, in terms of electricity, water, and oil
6. Availability of skilled and unskilled labor at cost-effective rates
